

## CV SUMMARIES

**Fiona Brine** has a Bachelor of Fine Arts (Hons), Graphic Design major, from Curtin University WA and University of Tasmania. She is a Director of Barking Owl Audio and the Senior Designer of Brine Communication Design. This small company has specialised over the last 16 years in developing and improving relationships between organisations and their target markets, particularly using creative interpretive planning and designing multi-sensory installations in visitor-related areas.

Fiona is also the *ex officio* National President of the Australian Graphic Design Association (see [www.agda.com.au](http://www.agda.com.au)) and works within its Code of Ethics. Also see Fiona's LinkedIn profile at [www.linkedin.com](http://www.linkedin.com).

Barking Owl Audio Director **Michael Manion** is an Electronics Engineer with 20 years electronics design experience. Graduating from the University of Western Australia, Michael has worked across Australia on many research and development projects with CSIRO, Australian Antarctic Division, Australian Optical Fiber Research and others.

Michael brings design expertise in embedded electronic systems and reliable software design to the key role of Technology Development Engineer at Barking Owl Audio.
